Company Background

IMD Company Limited

IMD Company Limited was established by a group of people who have over 15 years of experience in both providing software implementation and training courses for Business Application Software and Business Intelligent Software for many businesses. Currently, the company provides comprehensive consulting, implementing and technical support for software, that is used mainly for executive management in making decisions. These areas are in Business Intelligence (BI), Business Performance Management (BPM) and Decision Support Systems (DSS). From this experience and specialization we chose our company name “**IMD**” (**Intelligent Management Decisions**).

INTELLIGENCE

The company has expertise in many products within those three groups of software, BI, BPM and DSS.

MANAGEMENT

We have assisted a number of companies that have implemented these products successfully, DTAC and Krungthai Bank.

In the current economic conditions, Business Intelligent Software and Business Performance Management are favored among successful companies. These software applications assist executive management in integrated planning and forecasting, continual performance measurement, reporting, relevant business analysis and decision-making.
